Contemporary Physics

Editor

Professor P. L. Knight, FRS, Optics Section, The Blackett Laboratory, Imperial College, London SW7 2BW, UK

Book Reviews Editor

Dr R. C. Thompson, Optics Section, The Blackett Laboratory, Imperial College, London SW7 2BW, UK

North American Editor

Professor T. M. Sanders, Department of Physics, Harrison M. Randall Laboratory, University of Michigan, Ann Arbor, MI 48109-1120, USA

Editorial Board

D. Bailin, Sussex University, Sussex, UK
E. J. Burge, Stroud, UK
K. Burnett, FRS, University of Oxford, Oxford, UK
R. W. Cahn, FRS, University of Cambridge, Cambridge, UK
F. Close, Rutherford Appleton Laboratory, Oxford, UK
V. L. Ginzburg, Russian Academy of Science, Moscow, Russia
P. T. Greenland, Imperial College, London, UK
A. J. G. Hey, University of Southampton, Southampton, UK
R. Joseph, Institute of Astronomy, Honolulu, USA
P. V. E. McClintock, University of Lancaster, Lancaster, UK
Sir J. Mason, FRS, Imperial College, London, UK
P. W. Milonni, Los Alamos National Laboratory, Los Alamos, USA
K. Samwer, Goettingen University, Goettingen, Germany
H. Walther, Max-Planck-Institut, Munich, Germany

Volume 43

Taylor & Francis
Taylor & Francis Group

Volume 43, number 1, January/February 2002

The role of clouds in the radiative balance of the atmosphere and their effects on climate
B. J. Mason 1

A model of population genetics and its mathematical relation to quantum theory
D. Waxman 13

Essay review
Politically correct, but physically confusing
J. James 21

Book reviews 25

Books received 47

Volume 43, number 2, March/April 2002

The enigma of the dark matter
S. Khalil and C. Muñoz 51

Quasi-two-dimensional organic superconductors: a review
J. Singleton and C. Mielke 63

Wave packet dynamics in molecules
B. M. Garraway and K.-A. Suominen 97

Essay review
The mystique of mesons and cosmic radiation
E. Sheldon 115

Book reviews 121

Books received 143

Volume 43, number 3, May/June 2002

Does a flying electron spin?
B. M. Garraway and S. Stenholm 147

Speckle interferometry
R. S. Sirohi 161

Cosmic rays of the highest energies
A. A. Watson 181

The transport and eruption of magma from volcanoes: a review
H. Pinkerton, L. Wilson and R. Macdonald 197

Essay reviews
The wily colonial boy
R. Gilmore 211

The legacy of Apollo
P. A. Hatherly 215

Book reviews 219

Volume 43, number 4, July/August 2002

Lights, action: optical tweezers
J. E. Molloy and M. J. Padgett 241

Smart imaging in the infrared
J. F. Ralph and M. Bernhardt 259

Spectroscopic effects of disorder in laser materials
B. Henderson 273

Essay reviews
Once upon a time, in the Soviet Union . . .
D. Bailin 301

Fusion in prospect
G. J. Pert 303

The science wars
S. L. Altmann 307

Book reviews 311

Volume 43, number 5, September/October 2002

The future linear collider
G. A. Blair 325

Tracing activity in distant supermassive black holes with X-rays
A. J. Barger 339

Self-assembled semiconductor quantum dots
R. J. Warburton 351

Nonlinear optics on the nanoscale
N. I. Zheludev 365

Deterministic patterns of noise and the control of chaos
D. G. Luchinsky 379

Essay reviews
Illusion and reality in the quantum world
J. Byrne 397

Heisenberg and the German bomb
T. M. Sanders 401

How we got here
D. J. Jacobs 405

Book reviews 409

Volume 43, number 6, November/December 2002

Melting from one to two to three dimensions
J. G. Dash 427

The Sloan Digital Sky Survey
J. Loveday, for the SDSS collaboration 437

When light goes astray: gravitational lensing in astrophysics
T. A. McKay 451

Alpha-particle clustering in nuclear reactions
P. E. Hodgson 461

Physics in organizations: a percolating approach
J. D. T. Arruda-Neto, S. S. Dutra, J. Arrais and J. Mesa 473

Essay reviews

Time to leave the alchemist's cave?
D. G. C. Jones 481

From lightning to nuclear fusion
J. Mason 485

Book reviews 493

Books received 507

Books Reviewed: author index 511
